Shady Lawn - nurseries

SHADY LAWN NURSERIES : HUGO KIND : HAMMONTON, N. J.

TO OUR CUSTOMERS:

I thank you for your patronage. It was an earnest pleasure to serve you. I am thoroughly convinced that the Golden Rule is thoroughly practical in business and religion. It works both ways—for others and for me.

I firmly believe that selfish interest defeats self interest—that my permanent profits and lasting satisfaction in success will come only through capable and dependable service.

It has not been our policy to send our list broadcast, but to cater to those who appreciate Quality and Service.

Personal attention to all orders, large or small.

Prompt shipments.

Immediate reply to all correspondence.

Advice cheerfully given.

Hammonton, "The Hub of South Jersey," is located half way between Philadelphia and Atlantic City on both the Pennsylvania Railroad and the Reading Railroad. There are many express trains direct to both points as well as direct service to New York. We extend to you a cordial welcome to a visit any time of the year. Time tables will be sent on request and it will be a pleasure to meet you at the station. Our Nursery is just two and a half miles from the depot.

TO MOTORISTS

The extensive "White Horse Pike," a concrete road in direct line from Philadelphia to Atlantic City will bring you within one half mile of our place. Ask any traffic officer or resident when reaching Hammonton and they will gladly direct you to our Nursery.

FROM NURSERY CERTIFIED BELOW VIRGINIA DEPARTMENT OF AGRICULTURE AND IMMIGRATION

Official Tag No. 1106

Richmond, Va., November 16, 1928.

This is to certify that the certificate of a duly accredited inspector has been filed in this office stating that the premises of **Shady Lawn Nursery, Hugo Kind, Hammonton, New Jersey**, were examined season 1928 and that the above mentioned certificate conforms to laws and regulations in force in this State.

This tag expires August 31, 1929. Issued on certificate of

T. J. HEADLEE,

State Entomologist.

G. T. FRENCH,

State Entomologist and Plant Pathologist.

STATE OF NEW JERSEY

ALVA AGEE, Secretary

Bureau of Statistics and Inspection

HARRY B. WEISS, Chief

No. 32

Trenton, N. J., September 1, 1928.

This is to certify that we have this 8th day of July, 1928, in accordance with the provisions of Chapter 268, Laws of 1916 State of New Jersey, inspected or caused to be inspected by a duly appointed Inspector the general nursery stock growing in the Shady Lawn Nurseries of Hugo Kind, proprietor, at Hammonton, in Atlantic County, New Jersey, and have found the same apparently free from San Jose and other dangerously destructive insect pests.

This certificate expires June 1, 1929, and covers stock actually in the nurseries when examined.

WM. H. MARTIN,

State Plant Pathologist.

THOMAS J. HEADLEE,

State Entomologist.

RALPH B. LOTT, Chief Inspector.

Note—U. S. Federal Inspection

It is our custom to have Federal Inspectors, during shipping season, look over and carefully inspect our stock daily. All shipments undergo a rigid test. All stock so passed is labeled with the U. S. Department of Quarantine certificate.

SPECIAL RASPBERRY CERTIFICATE No. 2

Trenton, N. J., Sept. 1, 1928.

This is to certify that the raspberry plants, roots or tips offered for sale by Hugo Kind of Hammonton, in Atlantic County, New Jersey, have been inspected in the field and found practically free from mosaic, leaf curl, rosette and similar diseases.

EDGAR G. REX, Chief Inspector.

Digging and Storage

It is of the general opinion that frost is necessary before digging. Such is not the case. The Dahlia (a native of Mexico) had never known frost. What is expedient is a short resting period. During Mexico's eight months of growing season and followed then by draught the plant naturally remains dormant. Under our "artificial" method of growing we should lift the tubers by about the end of October and store in a cool cellar; a light frost upon the leaves has no bad effect. A heavy freeze is apt to send the frozen juices to the bulb and what is known as dry rot will most always set in. Dahlias are best stored in a damp cellar with plenty of fresh air. They can also be stored in barrels or boxes, but left open until all excessive moisture has left the roots. Covering to keep them from shriveling may be placed on them after January.

All Dahlias here listed are grown at our grounds at Hammonton, N. J., tried out and thoroughly rogued. Though we make no claims that the varieties listed are the choice of Dahlias, we have made up this selection for the wants of our customers. Kinds and varieties as to the best is entirely psychological and we leave the matter of choice to the buyer.

Dahlia Cultural Directions:

Clumps should be cut to single eye divisions. If sprouted cut the sprout within a quarter of an inch from the bulb.

They should be planted in rows of five feet apart and two to three feet in the rows. The best method is to lay the bulb flat (not stand) and cover with three inches of soil. If a row six inches deep is struck and bulbs planted three inches the row can be filled in from time to time. When the plant has attained a height of about eight inches pinch out the top. This will enable the plant to sprout and give proper flowers. A second pinching may be made in the early August. Not later. Disbudding of the side shoots is very essential. This will give you the fine exhibition flowers. We suggest five to six flowers to the plant. Flowers cut in the morning hold up best. Place in a cool cellar away from draft. Slightly syringe the flowers, this will stiffen them.

In rich soil fertilize slightly. In poor soils over fertilization can hardly be accomplished. Bone meal, manure, or any good potato fertilizer is essential.

Cut (greatly reduced in size) showing practical methods of dividing. The crown (note knife) can also be split with good results.

Dahlias

All stock listed are strong divisions.

The kind of roots we send out—They are grown from divisions. We do not send the small knotted pot grown roots so often used. Our roots are of good size, dependable and well grown. Our diggings are made immediately after frost and it is our aim that all stock be harvested before the stem is frozen. This assures good keeping qualities.

3 bulbs at ten rate, 25 at 100 rate. Those listed singly at prices quoted. If you wish less than three of those listed at ten rates add 10 per cent.

Cactus and Hybrid Cactus

	Each.	10.	100.
Ambassador. Yellow buff, shaded apricot flower extremely large -----		6.00	
Arduery Davenport. A white Dahlia of good form--		2.00	
Attraction. Imagine a beautiful glistening lavender flower six to eight inches in diameter, of cactus type, on a stem of anywhere from three to four feet. The flowers stand erect, never looking downward, petals stiff and yet dainty, foliage a beautiful bright green. All stems run out into perfect blooms. No superfluous wood. This is what you have in "Attraction." As to keeping qualities it is unsurpassed -----	1.50	14.00	
Betty Austin (Peacock). The absolutely perfect Dahlia. A Hybrid that is in a class by itself. One more year has only demonstrated that all over the country it is one of the earliest to bloom, a free and continuous bloomer. The flowers are full to the center up to frost. Color, yellow at base of petal, blending to rosy carmine and rose, yellow at tips, reflex, rose-----	1.50	14.00	

Betty Austin.

	Each.	10.	100.
Bianca. Lavender. Not very good as a cut flower.		2.00	
Break O'Day (Maytrot) H. C. A new giant flowered Dahlia that should be in every collection. Its immense size is relieved by a beautiful irregular formation and its soft color. A delicate clear sulphur white at the tips. The petals are of great substance, illuminated by a satiny sheen, giving the flowers a waxy appearance. A strong vigorous grower and free bloomer with long erect stems. An acquisition -----		4.50	
Candeur. White, long stems, fine for cutting-----	1.50	14.00	
Cigarette. Yellow, red and white all in one flower. Oftimes comes varied. No two flowers alike. Very free and fine-----	2.50	22.00	

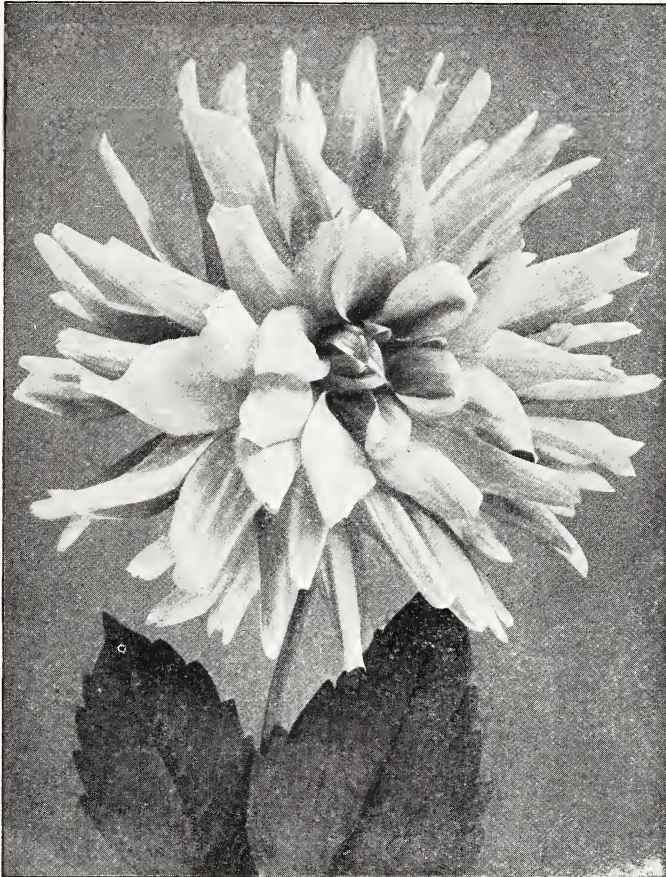

Countess of Lonsdale.

	Each.	10.	100.
Countess of Lonsdale. There is no bronze dahlia today that has superseded this variety in all points. "The Dahlia for the million" as one seed house stated--	1.50	14.00	
Crystal. Light pink, petals twisted and curved-----	2.50		
Crepuscle. Yellow shaded orange-----	2.00		
Daddy Butler. Pink of a rose color shade with suggestions of white; stems good; flowers last after cut -----	8.00

SHADY LAWN NURSERIES : HUGO KIND : HAMMONTON, N. J.

	Each.	10.	100.
Prince of Yellows. There is no yellow dahlia that gives the profusion of flowers that equals this variety. Well for bedding-----		1.00	8.00
Rene Cayeaux. Red, free-----		1.00	
Rheinischer Frohsinn. A most distinct and refined variety. The flowers are large, of splendid form; the long, incurving petals are white at the base, but about one-half their length they become suffused with and change to a luminous carmine rose a high class cut flower-----		2.00	18.00
Robert Groff. The finest hybrid cactus of the day. Color same as Attraction. In size far superior. Ten inches is common. Stems long. Keeping qualities excellent. R. C. only-----	2.00		
Rube Girl. A bronze and yellow effect-----		2.00	
Sequoia. Fawn yellow, free, a cut flower variety-----		1.00	
Shellikoff. One of California's favorites. A dark red. Flowers large and deep-----		6.00	40.00
Siskiyou (H. C.) (Broomall). Lavender pink, extremely large, strong stem. Has often won largest bloom in the show-----	1.50		
Skagerrak. This beautiful clear, clean lemon-yellow has flowers which under ordinary field culture, without disbudding measure 7 in. in diameter. In form it is all that can be wished for, the long petals making a deep gracefully shaped flower, always full to the center-----		4.00	30.00
Snowdrift. White, large and fine-----		2.00	18.00
Sophy Morry. Cactus of most wonderful coloring. White heavily overlaid lavender. A most desirable sort for cutting. A color that is rarely found in cut flower sorts. Do not fail to have at least a row of this variety for your trade-----		2.00	16.00
Springfield. Red overlaid salmon-----		2.00	
Success. Yellow -----		2.00	
Sunset Glow. It is larger than Red Cross and better color; it is always perfect in form and will produce several times as many flowers. The color is yellow at base of petal, outer part overlaid flame scarlet, tipped yellow. The plant is one of the very first to bloom, of medium height, 3 to 4 feet and branching habit. It is an extremely profuse bloomer and every flower is perfect. As it is larger and better colored than Red Cross, it is not only the best of this type for garden and commercial cut flowers, but a splendid exhibition bloom-----		1.00	8.00

	Each.	10.	100.
Standard Bearer. Old but still good. Free flowering red cactus-----	1.00		
Sunshine (Maytrott). Red with yellow shadings, fine cut flower-----	2.00	18.00	
Sweet Briar. Pink, fine for cutting-----	2.00	18.00

Thomas Oberlin. Intense scarlet-----	1.50		
Tom Lundy. H. C. Velvet red. A California favorite-----	2.00		
Theodore Roosevelt (H. C.). A new and very attractive dahlia that we listed for the first time last season. The flowers which are borne on long stiff stems are a beautiful shade of yellow. Each petal is finely curved and reflects to the stem as the flowers fully expand. Different than most other dahlias in this respect. It is of a hybrid cactus variety. 8 to 9 in. across. Keeps a long while after cutting.	3.50		
Valiant. Crimson-----	3.50		
Wacht am Rhein. Hydrangea pink, tinting to a white at center, good, straight stems and fine for cutting-----	1.50		
Wasco Beauty (Peoney Cactus). Large variegated flower composed of shaggy incurved petals of a pretty Geshia color-----	2.00		
Washington City. Snow white, of beautiful form and borne on long stems. The flowers are of enormous size-----	2.00	18.00	
Wodan. Old gold at center, shading to a salmon rose. This variety is in a class by itself, insofar as it is an extremely vigorous, almost rampant grower, producing the big flowers profusely on very long stems. Soft-----	1.00	8.00	
Yellow King. One of the largest of all cactus dahlias, being of gigantic size and of the finest new cactus. Color light yellow, tinting to cream at the tips, giving it a most pleasing affect. The immense flowers are borne on long, stiff but slender stems. Very late-----	1.00	8.00

Calvin Coolidge. One of our leading prize winners. Red and white. R. C. only-----		
California Gold. (Described under Paul Michael).		
Cambria (Dec.). Giant rose pink lighter in center. One of the best of the English dahlias. Always a prize winner-----	2.00	
Carmencita. A variegation of red and yellow. Semi dwarf -----	3.00	25.00
Casper Ware. Lavender pink of fine form-----	15.00	
Catherine Duer. Bright red, poor-----	1.00	8.00
Catherine Wilcox. White tipped red-----	2.00	
Champagne. In plain words "Champagne color" if you have not forgotten the good old days. Stems are long and flowers solid-----	8.00	

DECORATIVE AND HYBRID VARIETIES—Continued

	Each.	10.	100.
Charles Stratton. Of all our Dahlias in the bronze colors I think this a prize winner, in size it is enormous. The flowers seem endless as to the size that may be attained. Color very difficult to describe. A bronzey base intermingled with yellow. The petals curve most beautifully, giving this Dahlia a wonderful effect. Flowers produced on stems of a yard or two in length-----			
		10.00	
City of Trenton. Rich tangerine. Reverse strawberry. R. C. -----	2.00		
Color Sergeant. Salmon bronze (dwarf)-----		6.00	
Clare Kulp. Red, slightly intermingled with white. A large, perfect flower produced on very long, stiff stems. A cut flower of fine quality-----		2.00	18.00
Dakota. One of Judge Marean's introductions producing very large exhibition flowers of good form on good stout stems, color a deep tone of rich coral-red with coppery suffusion; a good decorative garden variety -----		2.00	18.00
Darlene. Pink, early good-----		1.50	14.00
Delice. Rose pink -----		2.00	18.00
De Lighted. The flower is large of fine white. Center shows what we may imagine a row of teeth. Reminding one of good "Teddy" when he greeted his many admirers and said "De lighted." If you are a Dahlia fan this variety should be in your collection -----		2.00	18.00
Dream. Beautiful pink, a fine cut flower on long stems (selected strain) -----		3.00	25.00
Dr. Tevis. Salmon rose, very large and a fine cut flower -----		2.00	16.00
Dorothy Robinson. A large bronze Dahlia of good form and habit. Long stems. A good keeper and one you should not miss. Said to do best along coast sections -----		2.00	16.00
Dusky Princess (Dec.). Dark velvety background with lighter veins in petals-----		2.00	
Earl Williams. Red, striped, white very good. Identical to Nobilis -----		4.00	35.00
Eastern Star. Golden yellow with a bronze suffusion. Flowers are borne on long stiff stems. Used as a cut flower. Our stock is grown from plant and we send out the clump as dug. The kind that you will want for bench propagation-----		9.00	85.00

this flower the genii of nature have blended the color tones in a manner that makes description difficult. But while the color somewhat varies according to weather conditions and the age of the flower, the general effect is that of salmon and old rose. As the blooms mature, the salmon changes into old rose, and like an after-thought, sometimes, there is a touch of lavender there. There is just a slight twist to the petals and irregularity in the arrayal of same, which gives the flower an air of grace and refinement that is lacking in most large dahlias. Somerset is a healthy and vigorous grower, that you will not need to spray and dust or worry lest some insect give it a cross look. Even Diabrotica (green, black spotted lady bug) will not touch it as long as there is something else to eat in the garden. Somerset has proved its value as an exhibition flower, winning at the Annual Dahlia Show of the Dahlia Society of Southern California in 1923, first prize for the best two-year-old seedling and first prize for the best flower in the show. Scored 90 points-----

Souv. de Gus Douzon. Scarlet red, large-----	10.00	80.00
Stunner (Dec.). Giant exhibition flower of an attractive light yellow color-----	1.00	8.00
Susan G. Tevis (Boston). Deep lilac flower with strong stem. Blooms profusely early and late----	2.00	
Sylvia. Deep pink -----	1.00	8.00
Theo. Vail (Dec.). Old gold shading to apricot. Fine for cutting -----	1.00	
Tommy Atkins. Remarkable for its wonderful coloring. Brilliant flaming scarlet with golden metallic lustre, the brightest and richest red yet produced. The flowers are very large but not at all stiff or formal and are well placed on good long stems; early flowering and continues good to the end of the season; splendid for exhibition, the garden, or for cutting -----	3.00	
Trentonian. A mammoth Dahlia of fine quality. Excellent for exhibition purposes. Colors are of the autumnal shades. R. C. -----	2.50	
Tut. A dahlia that is unusual from other variegated sorts. Yellow, bronze and red. Striped and splashed like a Sioux Indian on the war-path. All colors gayly intermingled. Plant is of perfect growth. Flowers are borne on straight even stems-----	1.00

Gold Medal. "Kind's Gold Medal." Of all the show Dahlias we have, here is a Dahlia all by itself. The reader may recall the older variety of Gold Medal. A yellow base with markings of bronze. Ten years back we found a sport from this particular sort which proved to retain its character. The color is of a most pleasing coppery bronze. Many of these flowers are shipped to the New York and Philadelphia markets. A color always wanted by the decorator. Consult your wholesaler as to his opinion on this particular Dahlia. Through a misunderstanding this Dahlia was given other names as "Gold Medal De Luxe," etc. There are the three strong points why you should have this Dahlia in your collection: A most desirable color, long sturdy stems, always in demand-----

Rooted Cuttings

HOW TO CARE FOR CUTTINGS WHEN RECEIVED

Unpack immediately, place in 2¼-inch pots or plant in shallow flats
of soil. Shade for several days. Many of our customers report placing
cuttings in the open field. Though this method of planting may be
successful in a rainy period, one takes chances should hot, dry weather
set in. Another good way when danger of frost is past is to plant in
cool frames. Cheese cloth makes an excellent shade and also prevents
draft from reaching the cuttings.

By this method stock will be ready in ten days and cuttings may be
lifted with good soil adhering to roots. Always water well before lifting
cuttings. An inexpensive way of shading in open field is to use maga-
zine pages and placing a little soil at both ends. It is surprising how
the moisture will remain under this covering.

Orders booked in rotation.

Charge orders not accepted on rooted cuttings.

No cuttings will be sent out earlier than February 1st. Stock shipped
only at customer's risk.

Cuttings not returnable.

Chrysanthemums

Five extremely hardy varieties. Sorts that hold their foliage despite severe weather. Selected from fifty so-called "Hardy Chrysanthemums." All these varieties are well adapted as to cut flowers.

Beaumont. Tall stately bronzy purple. Aster type. Foliage very good. Blooms late. Works well with autumn foliage. Lasts well when cut. Good shipper and producer.

Pink Dandy. Silvery pink. Aster type. Flowers about two inches across or size of a silver dollar. When fully open flowers show a pretty yellow center. Foliage robust and large. Does best outdoors, but not well adapted for indoor forcing. Free bloomer. Midseason.

Sunshine. A tall yellow of the Aster type. The last to bloom and surely worthy as a cut flower.

Zenobia. This Mum is not entirely hardy. Though it being such an extreme early bloomer we would suggest its cultivation freely. Color a fine bronzy yellow shade. Button sort. Long stems. Free. Holds foliage. Rooted cuttings per ten, 75c; 100, \$4.00; 1000, \$30.00.

White Cloud. White. Aster type. Long stems. Free robust. Price per ten, \$1.00; per 100, \$10.00.

Ten each of above collection forty in all, for \$5.00.
Field clumps while they last.

Mr. Local Landscape Gardener, Florist or Planter:

It has been our custom to carry in stock a complete line of all ornamentals, Rhododendrons, Large Privet, Trees, Rose Bushes, Flowering Shrubs, Nut Trees, and many other items. As our stock of this line is not sufficiently large enough to list, we therefore offer same only to the local trade. Our Nurseries are three-fourths of mile off from the White Horse Pike. A large attractive sign displaying a mammoth pink cactus Dahlia which is erected on the Pike at our road will give you our location.

FLATS

We have several flats which we have bought from a factory in another line of business. They vary in size from 3 inches deep to 3½ inches. Width from 14 inches to 16 inches and length from 18 inches to 24 inches. They have never been in the weather and are practically good as new. Would do fine for spotting your young plants. We use them for Dahlias instead of potting. This assures you of a fine spread root system and dispenses the knotted root when digging.

Per ten 20 cts. each. Per 100, \$15.00.

TISSUE PAPER

Soft yellowish white. The best for general use.

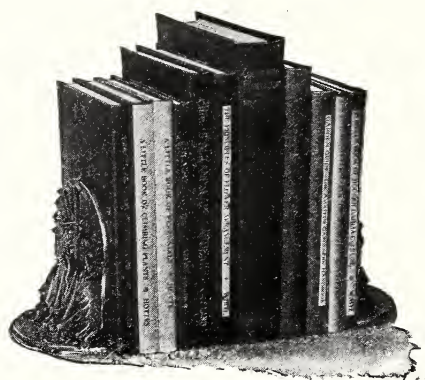

Per ream, \$1.60. Per bale, \$15.00.
